### Summary

---

Full Stack Developer with hands-on experience in building scalable web applications using modern JavaScript frameworks and backend technologies. Strong understanding of frontend-backend integration, REST APIs, databases, and deployment. Actively improving skills in system design and scalable architecture.

### Skills

---

**Frontend:** JavaScript, React, Redux, Next.js, Tailwind CSS, Figma

**Backend:** Node.js, Express.js, REST APIs, Docker, Nginx, VPS

**Databases:** PostgreSQL, MongoDB

**Programming Languages:** JavaScript, Java

### Experience

---

#### Full Stack Developer

Sept 2025 – Present

*BlueStone Tech Labs Pvt Ltd*

*Mumbai, India*

- Built a full-stack jewellery e-commerce platform using **Next.js** and **Express.js**, handling both frontend UI and backend logic.
- Designed and implemented a **PostgreSQL** database schema for products, carts, and orders, writing optimized queries for data handling.
- Containerized the application using **Docker**, simplifying deployment and environment consistency.
- Worked across the full development lifecycle, from feature planning to deployment and testing.

### Projects

---

#### The Platform | *Next.js, Express.js, MongoDB, TypeScript, Cloudinary, Nginx*

[Live demo](#)

- Designed and developed a full-featured content-sharing platform that allows designers to upload, manage, and showcase UI/UX designs, artwork, and video content in a structured and scalable manner.
- Implemented secure user authentication and authorization with multiple access levels, ensuring controlled content uploads and seamless browsing experience for viewers.
- Deployed the application on a private VPS using **Nginx** as a reverse proxy, configured HTTPS, and optimized server performance for reliable production usage.

#### Convexel | *Next.js, Express.js, PostgreSQL, Prisma, Socket.io, JWT, Docker*

[Live demo](#)

- Developed a real-time chat application supporting one-to-one and group conversations using **Socket.io**, featuring online status indicators, typing indicators, and instant message updates for a smooth user experience.
- Secured the application using **JWT-based authentication**, ensuring safe session management and protected API access.
- Dockerized the complete application stack and deployed it on a VPS, with **Nginx** managing incoming traffic and load handling.

#### Stock Price Prediction Web App | *React, Node.js, Express.js, Python, XGBoost*

- Built a machine learning-based web application that predicts future stock prices by training an **XGBoost** model on historical market data.

### Education

---

#### B.E. in Computer Engineering

2021 – 2025

*Atharva College of Engineering, Mumbai*

*CGPA: 8.4 / 10*

### Certifications

---

- **The Web Developer Bootcamp 2025** — Built real-world full-stack applications using modern JavaScript, React, Node.js, REST APIs, authentication, and deployment best practices.
- **JavaScript Tutorial and Projects Course** — Strengthened core JavaScript concepts including closures, async/await, promises, DOM manipulation, and problem-solving through hands-on projects.
